

Biochemic Compound

1.0	Introduction :			
1.1	Have you read Preface to Medical section?			
1.2	<p>Man's prime duty is to maintain his health, which is his 'true asset'. It is always better to prevent the onset of a disease than to try to eradicate it after it has occurred. One thing is logical that when a person tries to take prudent financial decision by applying his knowledge and experience, it is also necessary that investment in own health should also be done to enjoy the retired life. There is a general tendency to run to a doctor for even a small physical problem. One should cultivate the habit of keeping track of his health, read medical literature and try easy across the counter medicines before visiting doctor.</p>			
1.3	<p>One can try Tissue remedy, also known as Biochemical treatment. This treatment is in the nature of Food supplement. The underlying principle of this pathy is that disease is caused by deficiency of tissue salts. The treatment aims at replenishing the relevant tissue salts.</p>			
	There are 12 tissue salts, details of which are listed below.			
	Calcarea Fluorica	Ferrom Phos	Kali Sulph	Natrum Phos
	Calcarea Phos	Kali Mur	Magnesia Phos	Natrum Sulph
	Calcarea Sulph	Kali Phos	Natrum Mur	Silicea
1.4	<p>The various diseases can also be treated by consuming various tissue salts listed above according to its individual characteristics. However for a common man it may not be possible. Hence 28 Bio compound tablets have been prepared from the combinations of above tissue salts. Depending on the disease, one can easily purchase these BC tablets from the Chemist dealing in Homeopathic medicines.</p>			
1.5	One can try this Biochemical treatment at his own risk or after consulting his family doctor.			
1.6	Your attention is drawn to Preface to Medical section. Kindly read the same before you read this section.			

BC No.	To be taken for treatment of	BC No.	To be taken for treatment of
1	Anaemia	15	Menstruation Problems
2	Asthma	16	Nervous Exhaustion
